OceanMaster Evershield Epoxy Sheathing Resin

Description

Two pack epoxy resin used in conjunction with OceanMaster Sheathing Fabric. The system provides a completely joint free impermeable moisture barrier, minimising water ingress in wooden hulls and decks. Suitable for laminating of fibreglass reinforcement materials.

For use on

Timber hulls and decks. Protects underwater hull from marine organism entering from the outside.

Direction for use

Product designed for application by roller or brush.

Coverage	:	6 to 10 sq.m/L (Depending on type of timber)
Mixing Ratio	:	2 to 1 by volume
Thinner	:	T500
Recoat	:	6 hrs min, 12 hrs max Sand surface if overcoating time exceeds or if overcoating with a paint system.
Aged Recoat	:	Sand surface
Finish	:	Clear

Health and Safety

Provide adequate ventilation during use. Avoid contact with skin and eyes. Avoid breathing dust vapour or spray. Wear eye protection and gloves during use.
