

OceanMaster Rust Converter

Description

A water-based synthetic rubber primer with an excellent conversion property for rusting surfaces. Converts corroded areas in metal into stable matter thus preventing rust from spreading further. It is used as a primer onto rusty surfaces when the conventional methods of rust removal are impractical or not cost effective.

Direction for use

Suitable for exterior and interior use and should be topcoated with the chosen paint system.

Apply by brush, roller and air spray

Coverage	:	N/A
Mixing Ratio	:	N/A
Thinner	:	N/A
Recoat	:	N/A
