

OceanMaster Skid-Guard

Description

OceanMaster Skid-Guard is a single pack, ready-to-use polyurethane coating which is easily applied by roller or brush to provide an attractive slip resistance coating. OceanMaster Skid-Guard exhibits exceptional resistance to abrasion and attack by chemicals or fuels. The coating is extremely flexible and will not flake, chip or peel.

For use on

OceanMaster Skid-Guard can be applied to decks, ramps, jetties, walkways or any other applications where an attractive, tough and slip resistance coating is required. Its chemical resistance properties make it ideal for the protection of vehicles, boats and factory floors.

Direction for use

Product designed for application by roller or brush over primed steel, fibreglass, wood, aluminium, concrete and other substrates. Use OceanMaster Texture Roller Sleeves for best results.
