

TECHNICAL DATA SHEET

PRODUCT DESCRIPTION

Two pack epoxy timber primer and sealer where the ultimate protection of bare timber is required. Low viscosity, high solids, coupled with preservative biocide ensures good penetration into wood to prevent dry rot

PRODUCT INFORMATION

FINISH : Clear

DIRECTIONS FOR USE

Usage

All bare timber surfaces. Suitable as a clear undercoat prior to the application of any OceanMaster Varnish system.

Coverage

6-16 sqm/litre – 3 coats min

Mixing Ratio

1:1 by volume

Recoating time

2-12hours max

Thinner

T500

Curing Time

N/A

Pack Sizes

2 litre, 8 litres SET

QUICK TIPS

Product designed for brush application

Key to ensuring a good job is to ensure proper surface preparation on various substrates before coating.

First coat – add 50% thinner to saturate timber

Second coat – add 25% thinner to saturate timber.

Third and subsequent coats – no thinner required

SYSTEM

Everseal timber preservative

Clipper Plus Varnish

Or

Everguard Epoxy Undercoat

Marinegloss / Polygloss topcoat
